

Annual Chair Report 2021

This year has been a challenging one, and as a section we've had to constantly adapt, thinking of different ways we can operate. We've put out fun and interesting training opportunities and where possible in person COVID safe volunteering opportunities.

Due to the hard work of the section heads many have even doubled the output and involvement compared to last year.

The relationship built with the universities marketing team, will hopefully be built upon next year when there are less restrictions allowing for more collaborative events like workshops. This is just one step we can take to protect the future of the section we all love.

Cameron Glenwright

Media Chair 2020-21
